Information from Freedom Health for Care Providers About COVID-19 (UPDATED October 19, 2021)

Freedom Health will update FAQs as more information becomes available.

Freedom Health is closely monitoring COVID-19 developments and what it means for our customers and our healthcare provider partners. Our clinical team is actively monitoring external queries and reports from the Centers for Disease Control and Prevention (CDC) to help us determine what action is necessary on our part.

To help address care providers' questions, Freedom Health has developed the following frequently asked questions:

Update Summary

COVID-19 testing and visits associated with COVID-19 testing

Freedom Health will waive cost shares for the COVID-19 test and visits associated with the COVID-19 test, including visits to determine if testing is needed. Test samples may be obtained in many settings including a doctor's office, urgent care, ER or even drive-thru testing once available. While a test sample cannot be obtained through a telehealth visit, the telehealth provider can help you get to a provider who can do so.

Frequently asked questions

Freedom Health Actions

What is Freedom Health doing to prepare?

Freedom Health is committed to help provide increased access to care, while eliminating costs and help alleviate the added stress on individuals, families and the nation's healthcare system.

These actions are intended to support the protective measures taken across the country to help prevent the spread of COVID-19 and are central to the commitment of Freedom Health affiliated health plans to remove barriers for their members and support communities through this unprecedented time.

Freedom Health is committed to help our members gain timely access to care and services in a way that places the least burden on the healthcare system. Our actions should reduce barriers to seeing a doctor, getting tested and maintaining adherence to medications for long-term health issues.

We are lifting out-of-pocket costs for members to:

- access diagnostic testing for COVID-19
- visit a doctor's office, urgent care or emergency department to get tested

We are also providing coverage for members to have an extra 30-day supply of medication on hand. We are encouraging members to switch from 30- day home delivery to 90-day home delivery, when allowed.

How is Freedom Health monitoring COVID-19?

Freedom Health is monitoring COVID-19 developments and what they mean for our associates and those we serve. We are fielding questions about the outbreak from our customers, members, providers and associates. Additionally, our clinical team is actively monitoring external queries and reports from the Centers for Disease Control and Prevention to help us determine what, if any, action is necessary on our part to further support our stakeholders.

Freedom Health has a business continuity plan for serious communicable disease outbreaks, inclusive of pandemics, and will be ready to deploy the plan if necessary.

Our enterprise-wide business continuity program includes recovery strategies for critical processes and supporting resources, automated 24/7 situational awareness monitoring for our footprint and critical support points, and the Virtual Command Center for Emergency Management command, control and communication.

In addition, Freedom Health has established a team of experts to monitor, assess and help facilitate timely mitigation and response where it has influence as appropriate for the evolving novel coronavirus threat.

In case of mass epidemic, how can you ensure that your contracted providers can still provide services?

Freedom Health is committed to working with and supporting its contracted providers. Our benefits already state that if members do not have appropriate access to network doctors that we will authorize coverage for out-of-network doctors as medically necessary.

COVID-19 Testing

Will Freedom Health cover member out-of-pocket costs related to testing and related visits for COVID-19?

Out-of-pocket expenses—inclusive of copays, coinsurance and deductibles for COVID-19—are waived for tests and related visits, including visits to determine if testing is needed. Tests samples may be obtained in many settings including a doctor’s office, urgent care, ER or even drive-thru testing once available. While a test sample cannot be obtained through a telehealth visit, the telehealth provider can help you get to a provider who can do so.

Does Freedom Health require a prior authorization on the focused test used to diagnose COVID-19?

No, prior authorization is not required for diagnostic services related to COVID-19 testing.

Coding, billing and claims

Does Freedom Health have recommendations for reporting, testing and specimen collection?

The CDC updates these recommendations frequently as the situation and testing capabilities evolve. See the latest information from the CDC:

<https://www.cdc.gov/coronavirus/2019-ncov/hcp/clinical-care.html>

What diagnosis codes would be appropriate to consider for a patient with known or suspected COVID-19?

The CDC has provided coding guidelines related to COVID-19:

<https://www.cdc.gov/nchs/data/icd/ICD-10-CM-Official-Coding-Gudance-Interim-Advice-coronavirus-feb-20-2020.pdf>

Does Freedom Health expect any slowdown with claim adjudication because of COVID-19?

We are not seeing any impacts to claims payment processing at this time.
